Lumber Sheds

Public

Springfield Hospital Center

Sykesville

The two lumber sheds are one story frame structures located south of the powerhouse. Resting on a concrete foundation, the structures display a gable roof. The lumber sheds measure ten bays long and two bays wide.

## 7. Description

Survey No. CARR-1243  
CARR-1244

<b>Condition</b>		<b>Check one</b>	<b>Check one</b>
<input type="checkbox"/> excellent	<input type="checkbox"/> deteriorated	<input type="checkbox"/> unaltered	<input checked="" type="checkbox"/> original site
<input type="checkbox"/> good	<input type="checkbox"/> ruins	<input checked="" type="checkbox"/> altered	<input type="checkbox"/> moved
<input checked="" type="checkbox"/> fair	<input type="checkbox"/> unexposed		date of move _____

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The two lumber sheds, situated in a vertical line, are located south of the powerhouse. The lumber shed to the north is the older structure of the two and is identified as lumber shed #1. The shed to the south is the second lumber shed. The two wooden structures are very similar in appearance so that one description will suffice for both. The structure measures ten bays long and two bays wide and rests on both a cement foundation and cement piers. Rising one story, the building displays a shingled, gable roof. The structure faces east and it is the east side which is open and reveals the ten storage bins. The bins are closed off by hinged doors of wooden planks. The profile of the building from the south wall exhibits an unbalanced appearance because the gable roof on the east side is attached at the crest but hangs down somewhat independently, only supported by rafters due to the absence of the east wall.

## 8. Significance

Survey No. CARR-1243

Specific dates 1924, 1931 Builder/Architect Hospital Personnel

check: Applicable Criteria: ☐ A ☐ B ☒ C ☐ D  
and/or

Applicable Exception: ☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

Level of Significance: ☐ national ☐ state ☒ local

Prepare both a summary paragraph of significance and a general statement of history and support.

The two lumber sheds are located in the industrial group where support functions for the hospital are housed. The earliest known date on the first lumber shed is 1924. The second shed was constructed in 1931 during a phase of hospital improvement. While neither shed is architecturally superior, the two structures moderately contribute to the built environment of the hospital as a representatives of the outbuildings necessary to keep the hospital operating efficiently.
